Description

En tant qu'opérateur de scan, lorsque que je modifie la liste de diffusion, je peux ajouter un utilisateur en tant qu'attributaire puis en copie

The screenshot shows a web application interface titled "Liste de diffusion". It features two sections: "Attributaire" and "En copie".

- Attributaire:** A table with one row for "ABAD NADIRA" from "Direction de la Culture". The row includes a checkmark, a user icon, a close button (X), and a dropdown menu with "En copie" selected.
- En copie:** A table with two rows. The first row is for "ABDELWAHED NOURA" from "Service Affaires Civiles", with a checkmark, user icon, close button (X), and a dropdown menu with "Destinataire" selected. The second row is for "ABAD NADIRA" from "Direction de la Culture", with a checkmark, user icon, close button (X), and a dropdown menu with "Destinataire" selected.

Below the tables are two buttons: "Valider" and "Annuler". At the bottom, there is a search field labeled "Utilisateur" with an empty input box.

This screenshot shows the same "Liste de diffusion" interface but with a search section below the "En copie" table.

- Search Section:** Two input fields labeled "Utilisateur" and "Département". Below them are two buttons: "Liste suggérée" and "Effacer les filtres".
- Liste des utilisateurs:** A table listing users with columns for "NOM PRÉNOM" and "DÉPARTEMENT".
