test sur la demo :

The screenshot shows the Maarch Courrier web application interface. The browser address bar displays 'demo.maarchcourrier.com/dist/index.html'. The main content area shows an 'Accueil' (Home) page with a search bar and a navigation menu on the left. A modal dialog titled 'Envoyer au parapheur' (Send to the copier) is open, displaying the message 'Voulez-vous effectuer cette action sur le courrier en cours d'enregistrement ?' (Do you want to perform this action on the mail in progress?). Below this, a red error message states 'Un signataire minimum est requis' (At least one signatory is required). The dialog also includes fields for 'Ajouter des utilisateurs' (Add users) and 'Ajouter une annotation' (Add annotation), along with a 'Tous' (All) button for 'Annotation visible par' (Annotation visible by). The 'Valider' (Validate) and 'Annuler' (Cancel) buttons are at the bottom of the dialog. A 'Service forbidden' error message is visible in the top right corner of the application area.
